Additional Information 4

Competition Opens:	August 23, 2024
Application Deadline:	October 1, 2024
Eligibility:	Cambodia, India, Indonesia, Thailand, and Singapore nationals, who took part in the <i>Indo-Pacific Research Security Consortium</i> Workshop conducted by Sandia National Laboratories.
Award Amount:	Varies by grant opportunity: 1. Up to \$11,000 2. Up to \$9,000 3. Up to \$6,000
How to Apply:	By email to nonpro-grants@crdfglobal.org
General Area:	Security Studies
Award Duration:	Up to six (6) months
Announcement and Application:	On CRDF Global’s website: Emerging Research Security Leaders Grant Opportunities – CRDF Global

Overview

- CRDF Global, on behalf of The U.S. Department of State’s Office of Cooperative Threat Reduction, will oversee a small-grants competition eligible for attendees of the *Indo-Pacific Research Security Consortium* Workshop, conducted by Sandia National Laboratories (SNL), who are members of the related research security consortium. Applicants should have support from their affiliated institution.
- This competition aims to provide members of the Indo-Pacific Research Security Consortium with the funding to establish the consortium by facilitating actions that strengthen research security and develop a strong community of researchers to counter attempts to acquire dual-use research.

- Grants are a one-time, six-month award. Institutions seeking grants must complete an application to be considered for selection. Required documents include an application, detailed budget, a copy of the national IDs or passports of all researchers on the team, and the CVs of all researchers on the team.

Grant Scope

These three grant opportunities will support and empower the Indo-Pacific Research Security Consortium to develop a strong foundation to continue to advance research security in Cambodia, Indonesia, Thailand, Singapore and India. In your application, please note which grant you are applying for. CRDF Global will award two grants per opportunity: one award will advance research security in the East-Asia Pacific (EAP) Region, and one award will advance research security in India.

- Grant Opportunity One:** Plan and host the first two quarterly virtual meetings for the research security consortium OR plan and implement the consortium's first in-person research security conference. During the meetings or the conference, consortium members will further research security in the respective regions by presenting their findings, lessons learned, and creating a forum for knowledge transfer to the relevant policy community.
 - Award Amount: up to \$11,000**
- Grant Opportunity Two:** Develop original materials to brief stakeholders at your home institution on topics, themes, and best practices presented by SNL experts during the Indo-Pacific Research Security Consortium Workshop and preceding webinars. Grantee(s) will incorporate knowledge and lessons learned through their attendance at SNL events to develop and implement briefing materials and suggest institutional policies to mitigate risks and threats to sensitive research, data, and technology.
 - Award Amount: up to \$9,000**
- Grant Opportunity Three:** Develop and implement standard operating procedures (SOPs) and/or institutional best practice guides for Consortium member institutions. SOPs and/or best practice guides will cover institutional responsibilities in securing sensitive research, data, and technology such as: methods of research exploitation, identifying dual-use research of concern, research security best-practices, cybersecurity for research security, risk management, and due diligence. Grantee(s) will share lessons learned in developing and implementing SOPs and/or best-practice guides at the research security conference.
 - Award Amount: up to \$6,000**

Eligibility

- Applicants may apply individually or as a team.
- At least one member of the applicant team must have attended the in-person workshop on research security consortiums held by SNL.

- Grant teams advancing research security in the Southeast Asia region must be comprised of Cambodian, Indonesian, Thai, and Singaporean nationals, while those in India must be comprised of Indian nationals.
- Institutional and/or managerial approval is required for applications to be considered for this competition for Institutional Grantees.
- CRDF Global reserves the right to restrict the participation of any individual or institution in its programs. CRDF Global complies with all U.S. laws and regulations pertaining to export control and the participation of foreign nationals or institutions in its activities. It is the policy of CRDF Global not to conduct any transactions with U.S. restricted entities without appropriate authorization from the U.S. Government.

Application Materials

A completed application and supporting documents with all application sections filled out, including:

- A letter of institutional support, demonstrating host-institution approval of the project.
- A completed application form including all requested supporting documentation:
 - An abstract and proposed action plan, stating the purpose and goal of the project, possible and feasible ways to design, develop, and implement the project, and an impact statement.
 - The abstract should be double-spaced in 12-point font no more than 900 words. The abstract, goals, and action plan of the grant application should closely match one of the three grant opportunities articulated above.
 - A project schedule detailing expected timelines, expected level of effort for each project milestone, and anticipated completion dates for the project.
 - Proposed detailed budget.

The primary sheet should be used to fill out the project budget. Any Institutional support should be filled out in the Cost Share tab.
 - The curriculum vitae (CV) *and* passport or state-issued ID card for each individual on the project team.
 - Contact information for at least three professional references for the project team lead.

Proposal Evaluation Criteria

All applications will be evaluated based on the following criteria. All decisions by CRDF Global are final.

1. Project Topic/Relevance and Impact:

- The proposed project must meet the expected scope and objectives, both short-term and long-term.

2. Sustainability and Commitment:

- Proven ability to sustain the project and support outcomes after the grant ending period.
- 3. Clarity, Feasibility, and Detail:**
 - The project must be clearly outlined and possible to be successfully accomplished. The project must be completed during the grant period.
- 4. Budget Relevance & Competitiveness:**
 - The budget provided is realistic, clear and justified.
- 5. Past Performance:**
 - The applicant(s) shows a track record of high-quality outcomes on matters relating to responsible science & research.

Additional Information

- Applicants receiving provisional notice of selection may be asked to provide additional information to determine eligibility for receipt of funds.
- CRDF Global provides equal opportunities to all qualified individuals without regard to age, race, color, religion, sex, sexual orientation, gender identity, national origin, protected veteran, or disabled status.

We are committed to prioritizing an inclusive and collaborative space in which diversity and equity is discussed, championed, and supported. We acknowledge and honor the fundamental value and dignity of all individuals. We pledge ourselves to creating and maintaining an environment that respects diverse traditions, heritages, and experiences.
